PRESIDENT WILSON WILL ATTEMPT SETTLE STRIKE

RECRUIT PITCHER IS IN FINEST FETTLE; BAKE STEALS HOME

NOTHING BUT "HORSE-SHOE LUCK" GIVES GAME TO LAWRENCEBURG.

Brooks is Touched Up

McCULLOUGH INTERFERES WITH FIELDER—BUT IS NOT CALLED OUT.

(By BARRETT SHELTON)

The same old story, was the definition of the loss of the first of a three game series which Lawrenceburg is playing here against the Albany-Decatur outfit. The home gang again needed that one punch which has lost so many contests this season. The final count was 3-2, with the visitors on the large end.

Bingham, for Albany-Decatur, pitched brilliantly, and deserved the victory which went to Brooks who is on the Tennessee's hurling staff. Bingham was out of luck at the crucial period, while all the breaks and decisions went to the invaders. The first run, in the third inning, was unearned. McCullough was safe at first when Hucksaba was forced at second. McCullough took second on a passed ball and was then called safe at third after he had interfered with N. Baker, who was fielding a batted ball which Brownlow hit. McCullough coming three or four feet on the inside to "get" Baker. The rule book, section 8, rule 30, says: "If he (the base runner) fails to avoid a fielder attempting to field a batted ball or intentionally interfere with a throw ball, the runner is out." Sitton, the base umpire, gave McCullough the base and the score a moment later lost the game.

The contest had many bright lights, one of which was E. Baker's steal of home in the eighth frame. E. Baker singled, Halbrooks singled, E. Baker going to third. Then with Roberts at the bat the squeeze play was attempted. Roberts missed the ball and before Smith could recover himself, E. Baker had counted, Halbrooks taking second and the play going for a double steal.

In the second round E. Barnes came up and delivered with a terrific triple to the center field fence but failed to count as E. Baker whiffed for the third out.

Death of the Contest
The only double was when Allesio was caught off second after F. Barnes had captured Hucksaba's liner. "Doc" Cook gained a round of applause when he made a pretty stop of a grounder to right and threw the ball to first, getting him out. Cook was on his knees when the throw was made.

Bingham, though wild at times, got seven men in the strike out list. Brooks only had three whiffs to his credit.

Game In Detail

First Inning
Brownlow struck out. Hunter grounded to F. Barnes and was out at first. Smith singled but was caught off first, Bingham to E. Barnes.

Second Inning
Cook struck out. Marbet grounded to Bingham. Allesio walked and was out on a quick throw to first, Steadman to E. Barnes.

Third Inning
F. Barnes singled to McCullough. Bingham hoisted a long fly to Allesio. E. Barnes caught one on the trade mark for a three sacker, the ball going to the center field fence. The hit was one of the longest seen here in many a day. E. Baker fanned.

Fourth Inning
Hucksaba singled. McCullough safe on fielders choice to N. Baker. Hucksaba forced at second, N. Baker to Halbrooks. Brooks struck out. Brownlow safe on N. Baker's error when McCullough collided with Baker, going to third. Hunter walked. Smith hit by pitched ball, McCullough scoring. Cook grounded to second, forcing Smith, Halbrooks making a pretty stop.

Fifth Inning
Halbrooks singled. Roberts lifted a high one to center. Steadman lined to Brownlow. Frohoff singled. Halbrooks caught at the plate, Brooks to Smith.

Prospects are now bright for the three-game series here with both the Birmingham and Nashville Southern league teams about September 15.

SOME SHOPMEN GO BACK TO THEIR JOBS OTHERS TO REMAIN OUT

PRESIDENT'S ULTIMATUM BRINGS DEFIANCE FROM NEW ENGLAND AND OTHER PLACES

(International News Service)
Atlanta, Ga., Aug. 8.—Striking railroad shopworkers of the southeastern states will not return to work until their demands for wage increases are met, N. H. Timmons, chairman of the Atlanta railway shopworkers, stated.

(International News Service)
CHICAGO, Aug. 8.—Striking railway shopmen west of the Mississippi river began returning to work today, according to reports received at the office of Regional Director of Railways Ashton. According to the reports received by Ashton, the men started returning to work immediately following President Wilson's ultimatum to the officers of their union that no wage matters would be considered until the men were at work. In Chicago officials of the union are awaiting official word from acting President Bert M. Jewell, of the railway department of the American Federation of Labor, and declared that as soon as it is received a vote will be taken on the question of returning to work.

(International News Service)
BOSTON, Aug. 8.—Defiance by 20,000 New England railroad shopmen of President Wilson's ultimatum that the strikers must return to work before the government will consider their demands, today brought New England face to face with the greatest industrial crisis in its history. "The men have been bluffing so much in this wage matter, that they trust no one but themselves. They will not return to work until their demands have been granted," was the reply of the local leaders to the President's statement. The leaders today received instructions from B. M. Jewell, acting president of the railroad division of the American Federation of Labor, to order the strikers to return to work at once.

(International News Service)
INDIANAPOLIS, Aug. 8.—Striking railway employees here will remain on strike, regardless of what the President may say, S. F. Galloway, chairman of the committee in charge of the shopmen's walk-out declared today.

FOURTH GAME WITH THE TENNESSEANS

WILL BE PLAYED HERE MONDAY. THREE NEW TWIRLERS ARE SIGNED.

A fourth game with Lawrenceburg on the local lot was arranged today by Manager Hames, and will be played Monday. The contest will take the place of the one scheduled at Pulaski between Albany-Decatur and Lawrenceburg, which was called off because of a typhoid epidemic at the Giles county capital.

The full schedule for next week follows:
Monday: Albany-Decatur vs. Lawrenceburg, baseball park.
Tuesday: Albany-Decatur vs. Lawrenceburg, Lynnville, Tenn.
Wednesday: Albany-Decatur vs. Lawrenceburg, Columbia, Tenn.
Thursday, Friday, Saturday: Albany-Decatur vs. Lawrenceburg, at Lawrenceburg.

The local pitching staff has been swollen by the signing of three new moundmen: Bingham, of Pensacola; Lewis, of Guntersville, and Bennett, of Nashville. "Bingo" showed his class in yesterday's contest. Bennett or Lewis will perform today, and the other tomorrow. Bennett was formerly with Lawrenceburg, and pitching against his old mates at Nashville last week struck out 15 men. In order to retain all his catapulters, Manager Hames has decided to sign no new men. Both Lewis and Bingham are fast infielders, and will play these positions when not on the hill. This will result in another alignment, although Barnes will remain on the initial sack.

Prospects are now bright for the three-game series here with both the Birmingham and Nashville Southern league teams about September 15.

CONGRESS IS READY HEAR WILSON PLAN TO CHEAPEN FOOD

DECKS CLEARED FOR MESSAGE TO BE READ THIS AFTERNOON.

Partisanism Set Aside

LEVER BILL WILL BE WEAPON USED TO RESTORE NORMAL PRICES.

(By JOHN EDWIN NEVIN.)

WASHINGTON, Aug. 8.—President Wilson called on congress this afternoon to protect the consuming public from extortion in the cost of necessities of life. Addressing a joint session of the senate and house at 4 o'clock, the president set forth his recommendations for legislation to cope with the high cost of living. There was a quorum of both houses present. The house leaders had kept the telegraph and long distance lines busy all night with the result that when the house met at noon a quorum was in attendance and it was found possible to secure favorable action on the joint resolution authorizing the session. All afternoon members arrived on various trains with the result that before the time for the joint session fully two-thirds of the house was in Washington.

(International News Service)
WASHINGTON, Aug. 8.—Congress today had cleared its decks for speedy action on the recommendations designed to bring down the cost of living, which were to be made by President Wilson before a joint session late this afternoon.

There was every indication among both senate and house leaders that no partisan issue would be raised over the president's suggestions, and that the committees to which they might be referred would side-track all other matters in order to get the quickest possible results on the President's program.

The President today had put the finishing touches on his message, reported to contain some 7,000 words. He will tell in detail of the spirit of unrest that has raised its head throughout the country, as a result of constantly increasing cost of the necessities of life, and will urge immediate consideration of the program he offers.

One of the President's principal recommendations is understood to be for the enactment of legislation along the lines of the Lever food control bill, under which the department of justice is now proceeding in its campaign against the big profiteers.

Favorable Report On Mexican Probe

(International News Service)
WASHINGTON, Aug. 8.—The Senate foreign relations committee this afternoon reported favorably on a resolution sponsored by Secretary King, of Utah, calling for an exhaustive investigation of all outrages suffered by Americans in Mexico.

PARCEL POST LIMIT RAISED IN DISTRIBUTION ARMY FOOD

Fuller Instructions Sent Out From Washington Regarding Surplus Products.

Fuller instructions regarding the distribution of government-owned food by the post office department have been sent to local postmasters, although so far no orders are being taken.

The announcement of the postoffice department says: Buyers will place orders with local postmasters or letter carriers, it was stated, in writing in duplicate. The cost of the article plus the postage charges will be collected at the time the order is placed.

Postmasters will order from distribution depots, which will be located so that consumers will be within the first and second parcel post zones as far as practicable, it was said. The orders will then be mailed out from these depots.

The policy of first come, first served will be adhered to throughout the entire operation, it was stated. It is anticipated that more orders will be received than it is possible to fill. Postmaster-General Burleson has

MEMBERSHIP DRIVE OPENED TO HELP IN ROAD IMPROVEMENT

MORGAN'S QUOTA IS MEMBER FOR EVERY CAR IN COUNTY.

"Stickers" Received

ARE PUT ON SALE IN BOTH DECATUR AND ALBANY TODAY.

The membership campaign of the Alabama Highway Improvement Association will be started locally immediately, it was announced today by W. E. Crawford, Morgan county chairman. Four hundred windshield stickers have been received and will be sold to motorists at one dollar each, the membership fee of the association. Stickers may be obtained from the Decatur postoffice and from E. M. Odom, of Albany.

Morgan county's quota is a member for every motor car owned in the county and the funds derived from the drive will be used in the campaign for the passage of the \$25,000,000 good roads bond measure.

The following outline of the campaign has been sent from headquarters at Montgomery:

Membership in the Alabama Highway Improvement Association is open to every citizen who is interested in saving Federal Aid for Alabama and in promoting a system of dependable roads in every county of the State.

The object of the Membership Campaign is to give publicity to the present good roads movement and to strengthen the organization by enlisting the active support of a large number of prominent men in each county.

The price of a membership is one dollar. Each paid member is to be given a sticker to be carried on the windshield of his automobile. When his name and address are reported to this office, a Certificate of Membership will be mailed to him.

Names and addresses of members should be written plainly on report blanks, so an accurate record can be made at Headquarters. Chairmen should appoint other good roads enthusiasts on committees to help in placing memberships.

Reports should be sent in as early as possible, in order that certificates of membership may be mailed to the members with the least delay.

FREIGHT EMBARGO IN EFFECT TODAY

No new shipments of freight, other than livestock and foodstuffs, were accepted by the Louisville and Nashville today, with the exception of a small amount of local freight which will reach its destination Saturday, in accordance with the embargo placed on freight by the road late yesterday.

Shipments in transit from northern points, southward to New Orleans, were being completed, it was stated here. Passenger traffic is normal and tickets are being sold to all points in every direction.

LOCAL PASTOR RUNS FOR COUNTY OFFICE

J. H. HILL BECOMES CANDIDATE FOR TAX COLLECTOR SAYS ANNOUNCEMENT.

J. H. Hill, pastor of the Moulton street Christian church, today announced that he will become a candidate for tax collector of Morgan county. Mr. Hill is well known throughout the county and has many friends.

The announcement followed a call published in several papers in the county signed "Many Friends" and requesting that he enter the race.

Official Statement From Shop Crafts

The walk-out meeting of the local Railway crafts, held its regular daily meeting at the Masonic Theatre this morning, beginning promptly at 9 o'clock. The meeting was opened as usual with prayer and with the singing of "America." It also closed with the singing of the same hymn. By unanimous vote the following editorial taken from the Albany-Decatur Daily of Aug. 6 was received by the body and a formal vote of thanks was extended to the management of the paper, for the generous and true sentiments expressed therein: **SUPPORT THE SHOPMEN IN THEIR FIGHT**

The L. & N. shopmen who walked out yesterday are the same men who have so nobly stood by the Twin Cities in the time of stress. They are the men who put the Liberty loan, Red Cross and other drives across in the period of war. They are the men who have earned the money that brought unusual prosperity. Now that they have laid down their tools to battle for principle, they are entitled to the same kind of support that they have given. This support, of course, will be largely moral, for there is every reason to hope for an early and amicable adjustment of present differences between the workers and the railroad administration. If this happy conclusion is not reached, however, there will be no reason to overlook the debt of gratitude that is due.

Following this action the report of the executive committee was read and adopted, which showed gratifying progress of the local effort and the nation wide movement for lower food prices and adequate wages for railway employees of all classes and crafts. Two prominent visitors from out-of-town made speeches in which it was stressed that all lines of human endeavor would profit by the wage settlement and lower cost of living program, now contemplated by the railway employees.

According to reports from local men everything locally is proceeding favorably from the standpoint of the Railway craftsman. Before the close of the meeting a number of local crafts were announced to meet in regular session tonight.

PUBLICITY COMMITTEE.

SEVENTEEN TRAINS ARE ANNULLED ON ONE CHICAGO ROAD

(International News Service)
CHICAGO, Aug. 8.—As a result of the strike of railroad shopmen, which has piled railroad yards with engines and cars, in need of repairs, seventeen trains on the Chicago & Northwestern railroad were cut from the schedule today, and indications are that trains were to be cut by other roads entering Chicago within the next 24 hours.

Orders have been received by the railway unions for the men to return to work immediately, pending President Wilson's action of the adjustment which caused the walkout of thousands of railroad shopmen.

SPECIAL JURY TO PROBE PACKERS

FOOD HOARDERS AND PROFITEERS ALSO ARE UNDER FIRE

(International News Service)
CHICAGO, Aug. 8.—Federal investigators are today rounding up evidence for prosecution of profiteers, food hoarders and monopolists in Chicago and, according to the U. S. district attorney's office, wholesale arrests will follow. Sugar, coffee and canned goods hoarders are receiving the attention of the district attorney's office and both retail and wholesale dealers are to be summoned to explain discrepancy in prices. Announcement has been made that a special grand jury will be called to take criminal action against the "Big Five" packers.

BERT M. JEWELL URGES SHOPMEN RETURN TO WORK

TELEGRAPHS ALL UNION OFFICERS REGARDING PRESIDENT'S ATTITUDE.

Wilson on the Job

ASSURES CRAFTSMEN WILL GIVE NEEDED RELIEF IF MEN GO BACK.

(International News Service)
WASHINGTON, July 8.—Confidence that the striking railroad shopmen would return to work in accordance with President Wilson's ultimatum was expressed today by Bert M. Jewell, acting president of the railroad department of the American Federation of Labor, with which the strikers are affiliated. Jewell has telegraphed all officers of the shops crafts affiliated with the federation acquainting them with the President's assurance that the "question of wages they have raised will be taken up and considered on its merits, but only on the condition that the men return promptly to work."

"The strike was never authorized at the beginning, and we had urged the men to return," Jewell said today. "However, now that the president has spoken, I have little doubt that they will go back."

J. J. Forrester, president of the Brotherhood of Railway Clerks, Freight Handlers, Station, Express and Steamship Employees, which is now taking a strike vote returnable September 8, indicated today that the ballot would be proceeded with, unless developments warranted its withdrawal, but at the same time he made it plain that no strike before the return of the ballot would be tolerated.

The heads of the Big Four brotherhoods have insisted that they have contemplated no strike. Warren Stone, head of the locomotive engineers, emphasized this before the House Interstate and Foreign Commerce Committee conducting hearings on the Plumb plan for government ownership and tri-partite operation of the railroads and A. B. Garretson, for years president of the Order of Railway Conductors, made the same assertion in an interview today.

"I have not even heard a suggestion among railroad workers for a strike, should congress refuse to grant government ownership," he said today.

WILSON'S LETTER

The President's letter follows: "I am just in receipt of the letter from Senator Albert B. Cummins, chairman of the Senate committee on interstate commerce, which set me free to deal as I think best with the difficult question of the wages of certain classes of railway employees, and I take advantage of the occasion to write you this letter, in order that I may, both in the public interest and in the interest of the railroad employees themselves, make the present situation as clear and definite as possible.

"I thought it my duty to lay the question in its present pressing form before the committee of the Senate, because I thought I should not act upon this matter within the brief interval of government control remaining without their acquiescence and approval. Senator Cummins' letter, which speaks the unanimous judgment of the committee, leaves me free and indeed imposed upon me the authority to act.

"The question of the wages of railroad shopmen was submitted, you will remember, to the board of railroad wages and working conditions of the railroad administration last February, but was not reported upon by the board until July 16. The delay was unavoidable because the board was continuously engaged in dealing with several wage matters affecting classes of employees who had not previously received consideration. The board now having apprised us of this inability, at any rate for the time being, to agree upon recommendation, it is clearly our duty to proceed with the matter in the hope of disposing of it.

Men Create Obstacle

"You are therefore authorized to say to the railroad shop employees that the question of wages they have raised will be taken up and considered on

PRESIDENT WILSON STEPS INTO BREACH

It is possible that when Senator Cummins, of Iowa, as chairman of the Interstate Commerce committee of the Senate, assured President Wilson that he had authority to settle the strike of railroad employees by attempting an adjustment of differences existing between the men and roads in regard to wages, he merely meant to "pass the buck" to the executive, in order that a republican congress might not be forced to go on record. And it is equally possible that Senator Cummins was not moved by partisan bias in announcing his conclusions as to what the present laws provide and the powers they confer. At any rate, Mr. Wilson was quick to accept the new responsibility, and stepped into the breach. Only a few hours after receiving the Cummins communication he had issued a statement in which he declared that the railroad men would be given a fair hearing and a quick decision, his only stipulation being that the strike be called off before negotiations were opened. Thus, as was the case in 1916, during a presidential campaign, when he put the Adamson 8-hour law through congress regardless of the opposition of capital, he showed that same remarkable talent for meeting face to face any issue that might arise, however grave, and once more stamped himself as the greatest American, both from the standpoint of the ideal and the practical.

There can be no gainsaying the fact that President Wilson is the best friend the laborer has in office. He has demonstrated this on so many occasions that no person can question his sincerity. He has stood for the rights of the workingman under the most trying conditions, even when his own political future was at stake, and it is a happy omen for the early adjustment of present railroad affairs that he is personally at the helm.

Arthur Henderson, the English labor leader, is reported to have said: "A terrible spasm of rage and despair among the people of Europe may set in before winter in which the final remains of civilization may be totally annihilated." Arthur must have forgotten that sentence he learned when a boy to the effect that "hope springs eternal in the human breast."

If every one from Swift, Armour, et al, to your home meat market man, was made file for public scrutiny receipts bills for what their meat actually costs them, it would help some. Secret prices as well as secret diplomacy, cause a whole lot of trouble.

"Game called on account of darkness," is never printed now, since the coming of the daylight savings man.

To use a beer garden for an ice cream parlor is not so bad, but insult of insults is to make it into a limburger cheese factory.

It is said suicides among former German commanders are increasing "alarmingly." They must have meant to have said "increasing admirably."

Suppose, as General Haig is reported to have said, "the British army won the war"—that is not as bad as if the Bosche had won it.

Henry Ford is determined to stay in the limelight, if for the price of it he has to go down in history as an "ignorant idealist."

It is always safe to exercise a virtue, now. So why call for an extension of time in the matter of consolidation?

There were no flowers, sweet music or the gentle rumble of rubber tires on the gravel walk when Mr. Burleson made his exit from control of the wires.

TODAY

FOOD IS LABOR.

THE NEW CAPITAL TAX.

"KEEP OUT IN MY AIR."

(By Arthur Brisbane)

The Railroad Unions tell the President truly that the problem is not higher wages, but the high cost of living. From the White House comes the official word, "The President is giving deep and thoughtful consideration to the high cost of living."

How is the problem to be attacked? How is it to be solved? A hog represents so many bushels of corn changed into pork. Corn costs double.

Corn and all farm products represent work. The farm hand gets \$4.00 a day, instead of \$25.00 a month. The hay and oats that the horses eat cost double. The gasoline that the farmer puts in his tractor costs double and more, thanks to a powerful trust. And when your tractor is arranged to eat kerosene instead of gasoline the price of kerosene is trebled.

In France labor unions went at it roughly. They took the food from farmers by force and paid them one quarter the price asked.

They cannot do that here. What will they do? Where will you begin to bring down the price of food? If you continue raising wages what will prevent constant increase of food prices, since food is only labor in another form?

Here is a ray of sunshine in the blackness, anyhow. The telegraph lines go back to their private owners today, and miracle of miracles a rate war is declared. Mr. Mackay of the Postal cuts twenty per cent off the rates charged by the Government.

Mails are opened and letters are going back and forth between Paris and Berlin today after five years. There is some hope in that announcement, which means that, at least for the moment, war on a big scale is stopped. If men want to live and resume the work of civilization they must first stop murdering each other.

There is amusing excitement because soldiers swear they saw a million-dollar bonfire in France flying machines burned up to get rid of them and automobiles and other property paid for by the American people burned in the same way.

True or false, the statement about the bonfire is not interesting or important. They burned up so many millions in the great Graft bonfire, the profiteers' feu de joie, that an occasional million-dollar bonfire does not make much difference.

casual million-dollar bonfire does not make much difference.

The Government is selling, by parcel post, surplus food stocks. In the city of Newark, N. J., Mayor Gillen, dressed in a butcher's apron, sells Government bacon at 36 cents a pound. Five tons sold in two hours. Something new in this Government. Where are the men that should be shouting "Anarchy?" Somebody always shouts "Anarchy" when anything is done to interfere with the exploitation of the people. Why was not the food privately sold to a few to be retailed at high prices to the many? The answer to that question is "PUBLICITY."

Italy now adopts the new idea in taxation. Fortunes, not incomes, will be taxed. This tax, cutting a slice out of capital, is expected to yield 20,000,000,000 francs to the Italian Government this year. Quite a source of revenue. Fortunes under \$10,000 will not be taxed. If that fashion spreads, can you imagine the wailing and gnashing of teeth?

A great French General says the French people are not bothered about the former Kaiser or what shall be done with him. That, he says, is for England to decide.

England, you may safely predict, will decide not to hang the first cousin of King George and favorite grandson of Queen Victoria.

To hang a royal personage does not leave a good taste in the mouth of royalty. It's too much like nailing a weasel's skin to the barn door. Other weasels dislike it.

A farmer near Kansas City has definite ideas on property. He says he owns his land down to the centre of the earth, and up above to the top of space—wherever that may be, and no man has a right to fly through his air without his consent. He is starting a lawsuit to prevent such use of "his" air.

This is refreshing, especially to single taxers. A nice legal point will arise. The earth is moving always one thousand miles an hour, turning around the sun—and the sun, dragging the earth with it, is furiously rushing through space, heaven knows where, just now toward the blue star Vega.

Consequently the space above that former's land is not the same space now that it was a second ago. It is the same earth, under his acres, but not the same space above them. Does he get title to all that new space, as his farm whirls through infinity?

THIS GADSDEN LADY'S STRENGTH RESTORED AGAIN

She Was Weak, Run-down, Nervous; Could Not Sleep, Suffered From Constipation, Liver and Kidney Troubles—All Praise Given Dreco.

"For months my 19 year old daughter has been breaking down in health and growing weak all the time. Her nerves were all on edge; could not sleep, bowels were bound up and liver sluggish and dull; pains were in every joint, and her back ached all the time and she was very nervous."

"A friend visiting me one day persuaded me to try the new medicine, Dreco. She said many people were praising it for the good it was doing in cases just like hers. I bought a bottle and am happy to say that she is in better health today than in years. Dreco fitted her case exactly and overcame her troubles, and I am proud to praise it to every one. It is a grand medicine and I will always have a good word to say for Dreco." This is the statement of Mr. J. L. Griffin, the well known farmer on route three, Gadsden, Ala.

Dreco is composed of the juices and extracts of many different roots, herbs, barks and berries, which act on the stomach, liver, kidneys and bowels, and purify the blood. It relieves constipation, prevents gas forming in the stomach; increases the appetite; induces sound, refreshing sleep; banishes catarrh of the head, and takes the pain out of rheumatic joints.

Dreco is now sold by all good druggists and is highly recommended in Albany by Albany Drug Co., and in Decatur by Hilda Drug Co.—Advertisement.

its merits by the director general in conference with their duly accredited representatives. I hope that you will make it clear to the men concerned that the railroad administration cannot deal with problems of this sort or with any problems affecting the men, except through the duly chosen international officers or the regularly constituted organization and their authorized committees. Matters of so various a nature and affecting so many men cannot be dealt with except in this way. Any action which brings the authority of the authorized representatives of the organization into question or discredits it, must interfere with if not prevent, action altogether. The chief obstacle to a decision has been created by the men themselves. They have gone on strike and repudiated the authority of their officers at the very moment when they were urging action in regard to various interests.

"You will remember that a conference between yourself and the authorized representatives of the men was arranged at the instance of these representatives for July 23, to discuss the wage question and the question of a national agreement, but before this conference took place or could take place, local bodies of railway shopmen took action looking toward a strike on the first of August. As a result of this action various strikes actually took place before there was an opportunity to act in a satisfactory or conclusive way with respect to the wages. In the presence of these

strikes and the repudiation of the authority of the representatives of the organization concerned, there can be no consideration of the matter in controversy. Until the employees return to work and again recognize the authority of their organization, the whole matter must be at a standstill."

WILMINGTON, N. C. HEARD FROM

A MERCHANT'S EXPERIENCE

HAS "AT LAST" FOUND A REMEDY THAT WILL DO ALL THAT IS CLAIMED FOR IT.

Mr. C. E. Sherrer, a well-known merchant of Wilmington, N. C., in an interview with the "Iron Man" at Elvington's well-known drugstore, said: "I suffered from nervousness, stomach trouble and general run-down condition. I could not sleep for more than one hour at a time, and my appetite was entirely gone. Reading the strong endorsements in the local newspapers of Ironized Paw-Paw, I resolved to try it, although I had almost given up hope, having used so many things. After taking a few days' treatment my appetite improved immensely, and I can now eat as usual and sleep good. I take pleasure in recommending Ironized Paw-Paw because I believe it will do all you claim for it."

You have only to get a bottle, take it according to directions, and you will never use any other tonic. Quality and quantity always count.

A system that is overworked or run down requires a safe tonic. Alcohol lifts but lets you fail. Ironized Paw-Paw lifts and holds you. Your druggist possibly keeps it, but if he doesn't, it is sold by every up-to-date drug store.

Ironized Paw-Paw, price \$1.20. Formula on every bottle. Mail orders promptly attended to. Interstate Drug Co., Inc., New York.—Advertisement.

Small Boys Warned By Manager Hames

Manager Ott Hames of the Albany-Decatur baseball team today again warned small boys in regard to depredations at the baseball park. "After this notice through the Daily, if the boys do not improve their conduct, I will invoke the aid of the law," he said.

Some of the youngsters have shown slight regard for the rights of others, and have committed such offenses as breaking up the benches, climbing on the grandstand, wasting the time used in marking the foul line, destroying the soft drink stand, and committing other obnoxious offenses.

I am Sincere! Stop Calomel! I Guarantee Dodson's Liver Tone

Listen to me! Calomel sickens and you may lose a day's work. If bilious, constipated or headachy read my guarantee.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle

costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe all the next day like violent calomel.

THE HAPPY HOME OF TO-DAY

may be a heap of smoking ruins before tomorrow. So many things cause fire that no house is immune. The only protection against all loss is fire insurance. A policy in a good company like the one we represent will afford you that protection in its best form. It is your duty to insure your home.

Want a Buffalo? Write to Houston About It

(International News Service.)
WASHINGTON, Aug. 8.—Want a buffalo for your home town? Write to Secretary Houston about it.

Provision is made in the current Agricultural Appropriation act for the Secretary of Agriculture to give buffalo to municipalities and public institutions for many surplus which may exist in the herds now under the control of the Department of Agriculture. No provision is made to give them to individuals, and only one may be given to each municipality or public institution.

There are approximately 7,000 buffalo in North America. Canada has something more than 3,500, and the total number in the United States is more than 3,000. This is about seven times the number in the United States in 1889, when the first buffalo census was taken.

There are eight Government herds, six of which are under the control of the Department of Agriculture. The largest herd in this country is in charge of the Interior Department and is located in the Yellowstone National Park, where there are about 450 bison. The Smithsonian Institution now has a herd of eighteen at the National Zoological Park, Washington, D. C.

SHANTUNG AFFAIR HAS DEEPLY STIRRED PEOPLE OF CHINA

INFORMANT FROM FAR EAST
GIVES DAILY THE INSIDE FACTS.

Is the Holy Province CONFUCIUS BURIED IN TERRITORY NOW CLAIMED BY JAPANESE.

In view of the great importance of the final disposition of Shantung, the Chinese province now held by Japan, and the efforts now being made at Washington to settle the controversy, the view of the matter as taken by the Chinese themselves in their conversations and in their current literature has been secured for the Daily from a strictly reliable source. The name of the informant is withheld on the ground that high church and governmental authorities have expressed the wish that "no names be named" in view of the delicacy of the situation now confronting the governments of China, Japan and America.

For the first time in human history, it was stated the Chinese people have of late attempted to control their government. The action against the Chinese government at Peking was directed first by the students of China. These students, according to eye witnesses, adopted the western strike method to enforce their demands, and they demanded a definite thing and won it, viz the dismissal of three pro-Japanese high Chinese officials. It was the action of these objectionable officials in ceding to the Japanese such provinces as Shantung, that brought on the student's strike.

Shantung Problem Also Up to America

It was stated that China, today is doing all in her power to secure America's aid in getting a review of the world peace conference dis-

tion, which has awarded Shantung to Japan. When shown a recent morning paper in which Secretary Robert Lansing intimated in an interview that the Shantung decision was NOT agreeable either to him or President Wilson the "first-hand informant from the far East" said: "That will indeed be good news to China. You know that Shantung is the 'Holy Land' of the Celestial kingdom. In it is buried the remains of Confucius, the great religionist and philosopher of the Chinese. Besides this, Shantung is regarded as the richest province in all China, which is a country you know, of four hundred million souls. So practical as well as sentimental reasons caused all China to react very strongly against giving up the province of Shantung."

A quotation given from "the Student's Strike" the official bulletin of the Chinese students is, as seen through a glass clearly just how the real heart of China feels as to Shantung and toward the Japanese government's promises. This publication says in part:

"In every city of China the students left their books and went out on strike.

What is it that we demand?

First and foremost if China is ever to rise out of her present shameful condition every one of her sons must be taught that treason to his country is man's greatest crime. Chinese officialdom has grown up under the old Mandarin system in which corruption was not only tolerated but expected. The officials were poor-paid and they were to earn enormous incomes by robbing the country. Under the Manchus this system could prevail; in a Republic it has no place. The Peking officials have not only sold the wealth of the country but they have betrayed her integrity. The worst enemies of China are not in Tokio but in Peking. Not only to avenge the wrongs that China has suffered must the traitors go, but to prevent the recurrence of treason, to inspire future generations, to set an example for the very boys and girls the future fathers and mothers of China, who are now on strike, must they be driven out. The fate of the nation depends upon it and with this principle there can be no compromise.

China demands that effective guarantees be secured from the Allied Governments that Tsingtau and the German rights in Shantung be returned to her immediately. Tsingtau was stolen from China by Germany. When China entered the war it was understood that this territory would be returned to her. When Japan prevented China from joining the Allies and captured Tsingtau she promised the Government of United States that she would return the territory to China. The Peace Congress has maintained the principles that territories forcefully seized and unjustly held shall be returned to the nation whose people inhabit them.

The foreigner will say, "But Japan intends to return this territory." China has suffered too long from Japan's intentions. China cannot accept a promise from Japan for it is like a whisper in the wind. China has been betrayed too often by her land neighbor to accept her covenant. She is a nation whose word is bankrupt. One need only think of Korea of Formosa, of Manchuria, of Mongolia, and of Serbia, to realize the uselessness of a Japanese promise. Japan will never fully, truly, and completely return Tsingtau unless she is forced to do it by the nations of Western Europe. It is to avoid the blood shed that might be entailed in the use of force that the students want effective guarantees made now that Japan will not be permitted to deceive China in this matter."

Grocer Up Against It.

"I have been up against it for past 3 years suffering from pain in my stomach and side until I was considering giving up my grocery business. Doctors and medicine did not help me. I heard of May's Wonderful Remedy through a friend in Buffalo. The first dose gave me more benefit than all the medicine I had taken before and am now feeling as well as ever in my life." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. S. M. Thompson in Albany and Owl Drug Co. in Decatur, and druggists everywhere.—Advertisement.

Mobs of Women Drag Conductors From Their Cars

(International News Service.)
NEW YORK, Aug. 8.—The strike
of the Brooklyn Rapid Transit Em-
ployees, was more serious today than
at any other time since it was called.
Less than 15 surface cars were be-
ing operated during the morning and
so menacing had the strikers become
that the policemen on board the cars
were increased from one to five.

Mobs of women attacked the sev-
eral car barns in Brooklyn, where non-
strikers were preparing to take out
cars. The motormen and conductors
were pulled off by main force and
finally fled, leaving their cars to the
mercy of the crowd.
Lindley M. Garrison, receiver for
the transit company, refused to have
any dealings at all with the union. "I
won't treat with them if they tie up
every car in the service," he was
quoted as saying.

Island Scene of Fierce Fighting.

The Isle of Wight, indeed, has had
a checkered history as far as wars are
concerned. Romans, Jutes, Saxons,
Danes all descended upon it in their
time, and from the fourteenth to the
sixteenth centuries the islanders lived
under the almost continuous threat of
invasion by the French, who, in 1377,
burnt Yarmouth, and so devastated
Newport that it "lay uninhabited for
two years."
